

Less busywork. More time for your business.

We help small business owners connect their tools, improve customer follow-up, and get repetitive work off their plate - with websites, practical AI, and systems built around the way the business actually runs.

01 / ATTRACT & CONNECT

Websites & online stores

Professional business websites, Shopify stores, customer portals, and quote forms. Connect inquiries and orders to the people and systems that handle the next step.

02 / KEEP WORK MOVING

Workflow automation

Connect lead intake, quotes, scheduling, invoices, payments, orders, and supplier updates. Reduce repeat entry and set reminders, alerts, and owner approvals where needed.

03 / PUT AI TO WORK

Practical AI & document support

Sort incoming requests, draft replies, summarize documents, and pull information from invoices, PDFs, and forms. Assistants answer from your business files and hand uncertain questions to staff.

04 / SEE THE WHOLE OPERATION

CRM, dashboards & reporting

Keep contacts, quotes, and next actions in one place. Bring jobs, orders, deadlines, and key numbers into a clear view, with staff assignments and decision controls for the owner.

05 / FIND THE NEXT OPPORTUNITY

Monitoring & growth research

Turn relevant bid notices, supplier updates, and listings into scheduled summaries. Use search research and content recommendations to identify useful website improvements.

06 / CONNECT THE SHOP & OFFICE

Asset identification & tracking

Equipment data plates, serialized tags, and QR, NFC, or RFID options. Connect the scan to an equipment record, service log, check-in, or maintenance workflow.

Built for the tools you already use. Microsoft 365, Google Workspace, Shopify, CRMs, and spreadsheets - connected primarily through n8n. We scope the connections around your needs, then build, test, document, and train your team.

Start with one useful process. You own the accounts and delivered workflows; ongoing support is available.

Built Different Custom Fabrications

A DBA of IdentiCore Technologies LLC

Custom signs, recognition pieces, personalized products, and fabrication made in Madison, Alabama. Bring a logo, drawing, photo, or idea - we help turn it into a finished piece.

BUSINESS & BRAND

Signs & branded pieces

Metal signs, shop and office plaques, engraved logos, branded displays, and stencils. Custom layouts and repeat designs for your business.

PEOPLE & MILESTONES

Awards & recognition

Employee and team awards, service milestones, retirement gifts, donor plaques, and dedication pieces - personalized with names, dates, and artwork.

GIFTS & CUSTOM METAL

Metal art & personalized products

Steel American flags, aviation overlays, shop and garage decor, bottle openers, tumblers, and custom gifts for staff, customers, or special occasions.

LASER WORK

Engraving & personalization

Fiber laser marking on compatible metals; CO2 engraving and cutting of wood, acrylic, and other suitable materials. Your logo, text, or custom design.

CNC & ONE-OFF WORK

Custom fabrication & parts

Routed plates and panels, custom shapes, hole patterns, jigs, fixtures, brackets, and accents. Personalized motorcycle badges, covers, and customer-supplied parts.

TRIBUTE & HERITAGE

Memorial & commemorative pieces

Memorials, historical markers, tribute pieces, and heritage displays. Custom materials, layouts, and details are quoted to the project.

FROM YOUR IDEA TO A FINISHED PIECE

1 Tell us what you need

Send your idea or artwork, size, quantity, and target date. Single pieces and repeat orders are welcome.

2 Review the proof & quote

We confirm the design, material, price, and schedule. You approve the layout before production.

3 We make it & hand it over

Cut, routed, engraved, and finished to the approved scope. We can retain the design for future orders.
